

LIFEPROOF FLOOR CARE INSTRUCTIONS

DISCLOSURE OF LIABILITY

Your unit has Lifeproof Vinyl Plank flooring. Proper care of the floor is mandatory. If proper precautions are not taken by Tenant(s), Tenant will be held accountable for any damages inflicted to floor for failure to upkeep and charged for labor and materials for replacement of damaged areas.

CARE INSTRUCTIONS

- Regularly sweep, dust, damp mop, or vacuum without beater bar to remove any particles that could cause abrasions or scratches to appear on your floor.
- Use a damp mop to remove spots or soil. Use any pH neutral floor cleaner.
- For lightly soiled areas, clean with distilled water.
- When the cleaning cloth/mop becomes soiled, rinse or replace it with a clean one. Following up with a clean, dry cloth will remove residue streak marks and spots.
- Avoid spills of acidic products, juice, soft drinks, wine, etc on the floor. Clean spots immediately.
- Promptly remove any standing water, pet urine, or other liquids.
- Avoid spills of paints, dyes, or harsh chemicals.

WHAT TO AVOID

- DO NOT use a steam cleaner.
- DO NOT vacuum with a beater bar or power rotary brush head.
- DO NOT use any cleaning agents containing wax, oil, or polish. Leftover residue will form a dull film.
- DO NOT use steel wool or scouring pad, as they will scratch the floor.
- DO NOT use any dust cleaners, as this may cause the floor to become slick or damage the finish.
- DO NOT use vinegar.
- DO NOT use all-purpose or multi-purpose cleaners.
- DO NOT use wet sweeper pads. Dry sweeper pads can be used.
